## Desk-up screen

Design: Bertil Harström

Ziggy has an unique design that does not need to be linked to other furnishings. Ziggy can be used with most of the tables on the market. The design is a simple repeated form in moulded felt. The technology allows the use of different colours on the inside and outside. Ziggy is attached to the table with fittings that make the desk-up screen very stable. Ziggy can also be bent in different radii.

### DIMENSIONS

Other dimensions on request.

Thickness: Felt 4 mm, screen 35 mm

Weight straight: 1.6 / 2.0 / 2.3 / 2.7 / 3.1 / 3.5 kg
