## Pendant with absorption

Design: Lukas Dahlén

Weave is like a onepiece in the open offices, in the conference room, several hanging from a high ceiling of the hotel lobby or over the coffee table at work. Birch and recycled PET bottles are intertwined through traditional craftsmanship and modern technology to a mood lighting fixture that contribute to a good acoustic environment. Weave is equipped with the latest 230V LED technology which provides a high light output and colour rendering, while the lighting is energy efficient with very long life.

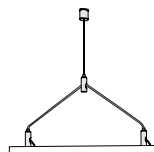

### DIMENSIONS

Weight: 8 / 16 / 24 kg

### DESCRIPTION

Body: Two oval birch frames 50 x 20 mm assembled with vertical birch strips 390 x 28 x 15 mm. White molded polyester felt intertwine in 3 levels between the ribs. 230V LED lighting mounted on horizontal wooden laths for both up and down light. The lighting has 3 mm diffusing lens hood in opal acrylic which spreads light in a pleasant way both at the top and bottom edge. Weave is delivered fully assembled and connected with an European plug to a standard socket 220 V. Can be connected to an external dimmer.

Suspension: Attached to the ceiling with an easily adjustable wire, 1.5 mm. Length 2 m.

Light source: Theo AC L56W4, 16 W, no driver is required

Voltage: 230V

Luminous flux: 3000 lm

Correlated colour temperature (CCT): 3000 K

### SAFETY

Repair and maintenance of the LED module must be performed by a qualified electrician.

When cleaning is required, use only water together with mild soap on the outside of the lens. Cleaning inside of the LED module is strictly prohibited.

### CERTIFICATE

The light source is approved according to IEC 62031:2008.

The product complies with the RoHS Directive.

Glimakra of Sweden AB is certified according to ISO 9001:2015 and ISO 14001:2015.
