Work booth

Design: Team Glimakra

Limbus Sub work booth in C or H formation targets the need of workplaces for individual focused work at the activity-based office. Limbus Sub is our most sound-absorbing screen and is well suited for work booths where sound absorption has to be maximized. The low weight means that even large screens are very easy to move. The flexibility in size and fabric selection allows the screens to be customized to most environments.

DIMENSIONS

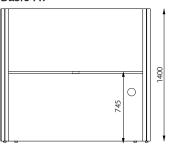

Basic C:

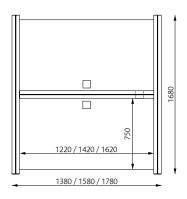

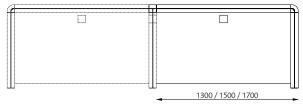

1380 / 1580 / 1780
