

New - Hilja

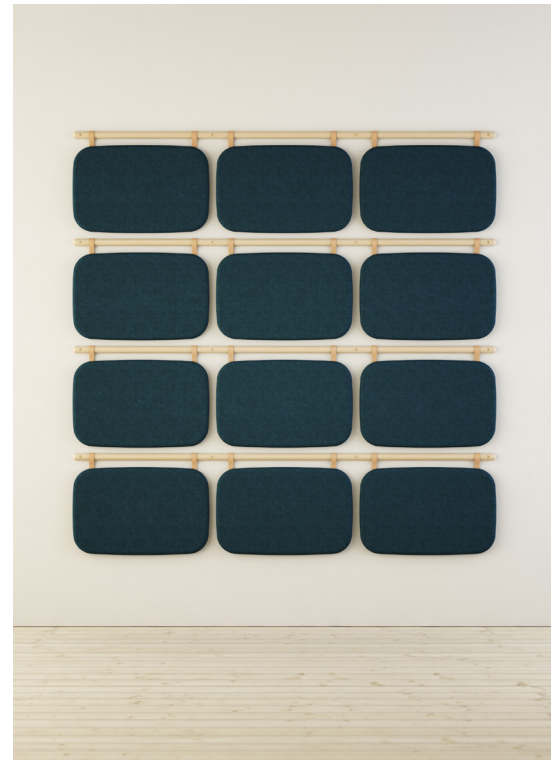

Design: Johan Kauppi

HALL 10.2
STAND J.016

GLIMAKRA
OF SWEDEN

Hilja means "quiet" or "calm" in Finnish and is a decorative wall absorbent with soft shapes, to contribute to a peaceful and cozy atmosphere. The wall absorbents can be used as wall mounted backrest to complement benches and site-built seatings or combined as independent and functional wall decoration.

Hilja wall absorbent has the shape of a superellipse which gives a pleasant impression. The suspension is made with leather straps around a half round birch bar available in three lengths.

For more information, please contact Head of Sales and Marketing, Göran Karlsson, +46 44 454 17. More information is also available on www.glimakra.com.
