LimbusConcept Soft
Concept workplace / Booth
Design: Team Glimakra
LimbusConcept Soft workplace in C or H formation targets the need of temporary workplaces for individual focused work at the activity-based office. The flexibility in the system regarding size and the large selection of standard fabrics provide almost unlimited opportunities to customize to most environments. A very important feature is that the sound reducing body significantly reduces the sound propagation in the room. A formation with tabletop increases the sound absorption at low frequencies significantly. LimbusConcept Soft can be fitted with a fixed tabletop.

**DIMENSIONS**

**Basic C:**

- Width: 750 mm
- Other dimensions on request.
- Thickness: 33 mm
