Siluett

Floor screen

Design: Brad Ascalon

It is simple and soothing in its shape. The changing scales evoke a sense of nature, like a series of trees in which one is certainly not exactly like the next. The greater the combination of different scaled units, the less one feels like he or she is in an office, but rather in the open, in nature. Siluett Floor allows for a focused work mode in that 1) it softens ambient sound, and 2) it masks the visual disruptions of a space to allow for a feeling of privacy both individually and within a small work group. Siluett also available as a desk screen.

DIMENSIONS

Thickness: 33 mm
