## Desk screen

Design: Niklas Dahlman

GLIMAKRA  
OF SWEDEN

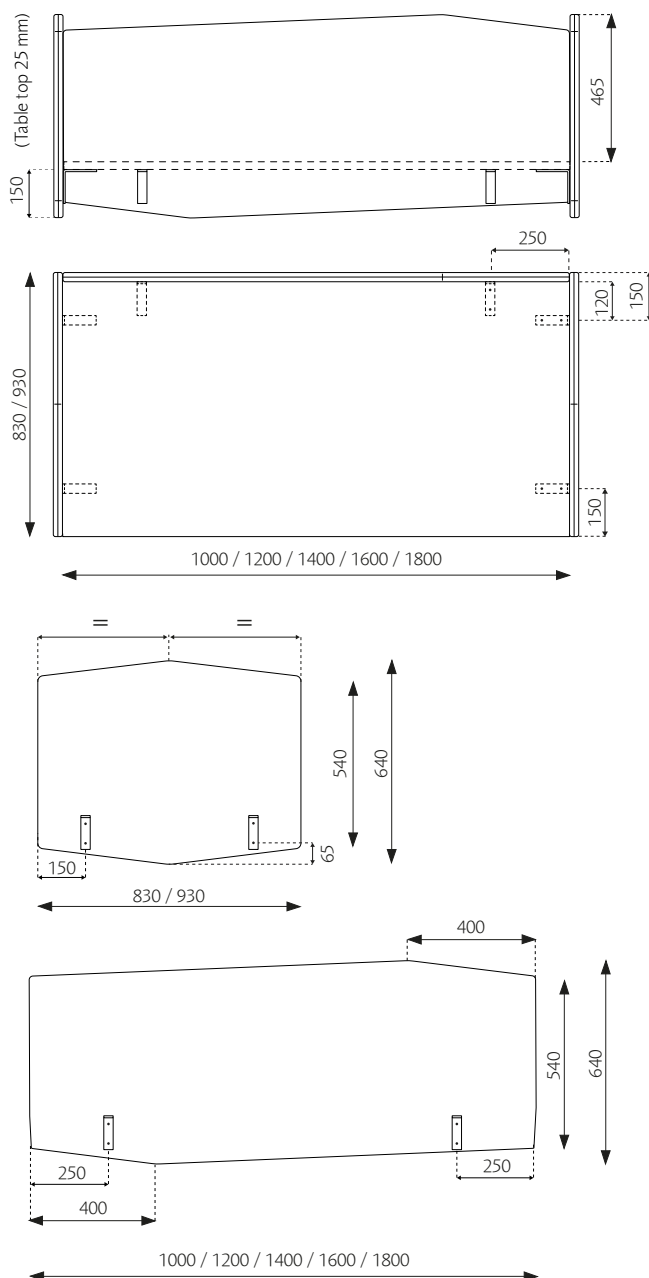

HEXX creates structure without shutting spaces in. With its distinctive hexagonal shape, it adds both rhythm and movement to the workspace while providing privacy where needed. Designed by Niklas Dahlman, HEXX combines a playful visual expression with thoughtful functionality. The result is a desk screen that not only enhances focus but also strengthens the office's visual identity. HEXX contributes to a dynamic, creative, and modern work environment—where design and function naturally work together.

### DIMENSIONS

Height over table: 465 mm

Other dimensions on request.

Thickness: 30 mm

### Weight [kg]:

Height [mm]:	640
Width 830 mm	3,5
Width 930 mm	4,0
Width 1000 mm	4,4
Width 1200 mm	5,3
Width 1400 mm	6,2
Width 1600 mm	7,0
Width 1800 mm	7,9

### DESCRIPTION

**Frame:** 30 mm thick, made of finger-jointed pine with 5 mm polyether around the edge.

**Filling:** Recycled PET.

**Cover:** Fabric upholstery with double stitching in color-matched thread and a black zipper at the bottom is pulled over the frame. Holes in the fabric are made using heat to prevent thread pulls during assembly.

**Sustainability:** HEXX is designed for long service life and circular use. The fabric upholstery is removable and can easily be replaced when worn or when a new look is desired. This allows the screen to be refreshed without replacing the entire product, reducing both resource consumption and waste.

**Assembly:** Attached to the desk with 2 brackets. More information is available in a separate product sheet here:
